**IPS APPOINTS INDUSTRY VETERAN NEJAT BABÜR, P.E., LEED AP
TO LEAD MECHANICAL ENGINEERING GROUP**

Lafayette Hill, PA; January 10, 2011 - Integrated Project Services (IPS), a leading, full-service engineering firm dedicated to helping clients succeed with capital projects and improve operations, today announced the addition of Nejat Babür, P.E., LEED AP. Mr. Babür will apply his extensive industry and technical expertise in mechanical engineering, HVAC design, operational knowledge and knowledge of advanced technologies to provide leadership to IPS' HVAC group. His responsibilities include directing day-to-day operations while ensuring excellent service levels and delivering projects of the highest quality.

"Nejat brings a keen understanding of all phases of the project lifecycle including design, engineering, specifications, sustainability, energy conservation and management and construction administration," said Dave Goswami, PE, President and Chief Operating Officer, IPS. "His proven project and technical expertise adds significant value to our client's projects. Nejat is an invaluable addition to the IPS Team and we look forward to his many contributions."

Mr. Babür brings more than twenty years of industry experience in the execution of capital projects for technically complex facilities. Throughout his career, he has focused on technically complex projects such as pharmaceutical, biotechnology, semiconductor, food and beverage, chemical, refinery, explosion proof control room, general manufacturing, laboratory and research facilities. His most recent experience was with STV Incorporated as Chief of Mechanical Engineers. Prior to that, he managed the mechanical engineering group at CH2M Hill Lockwood Greene. He has previously been employed with Jacobs Engineering and Acorn Engineering & Consulting where he was responsible for overseeing the department and ensuring the quality and thoroughness of design and documentation. Mr. Babür possesses a Master's degree in Energy Engineering from the University of Arizona, a Masters in Mechanical Engineering from Middle East Technical University and a Bachelor's degree in Mechanical Engineering from Istanbul Technical University.

About IPS

Integrated Project Services (IPS), www.ipsdb.com, is a full-service engineering firm dedicated to helping clients succeed with capital projects and improve operations. We specialize in complex facilities in high-tech and highly regulated industries providing technical consulting, engineering, construction and commissioning and qualification. For over twenty years, we have applied technical knowledge and LEAN techniques throughout the project life cycle, continually finding ways to do things better and more efficiently, delivering higher quality and controlling costs. Headquartered in Lafayette Hill, PA, IPS has branch offices in California, Indiana, Massachusetts, New Jersey and North Carolina and two locations in India, New Delhi and Hyderabad.
