IPS APPOINTS ZENON FARION AS DIRECTOR, BIOTECHNOLOGY

- Industry veteran to provide expertise in the design & project delivery of biotech facilities -

Lafayette Hill, PA, May 19, 2008 – Integrated Project Services (IPS), a full-service engineering, construction management, compliance validation company dedicated to assisting pharmaceutical and biotechnology companies improve operations, today announced the addition of Zenon Farion as Director, Biotechnology, expanding its Biotech Process Engineering group to offer more in-depth technical and operations services for the development and commercialization of biopharmaceutical products. Mr. Farion will leverage his extensive industry insight and knowledge of biotech project delivery from design, implementation of manufacturing processes, construction and validation.

"A seasoned industry veteran, Zen adds valuable experience and expertise to our team," said Dave Goswami, P.E., President and Chief Operating Officer at IPS. "He brings an impressive track record of biotech knowledge, project execution, process development and manufacturing operations. We are delighted to have him join our management team."

Mr. Farion offers over twenty-five years of experience in diversified engineering and project management of manufacturing, packaging, warehousing, pilot plants, laboratories, infrastructure and administrative facilities. Most recently, he was with GSK Biologicals as Director of Project Management and was responsible for a multi-million dollar capital program to rebuild a vaccine manufacturing site for the North American market. Previously, he provided modular project expertise for a major biotech manufacturer to deliver an aseptic filling/lyophilization facility to meet critical product demand. Prior to that, at Merck & Co's Central Engineering as Project Services Manager, he provided project and controls management of strategic biotech and pharmaceutical projects. At MDC Systems Corporation, as a Project Engineer, he provided project management and dispute resolution expertise to United States Government Agencies and Fortune 100 companies on various projects worldwide. Mr. Farion earned a Masters Degree in Engineering Management and a Bachelor of Science degree in Construction Management from Drexel University.
