**IPS ANNOUNCES NEW ROLES FOR KEY EXECUTIVES AS
COMPANY MATCHES LEADERSHIP TALENT TO EXPANDED SERVICES**

*-- John J. Gilroy, PE promoted to General Manager, Construction;
Edward J. Tannebaum, AIA assumes role of President, Strategic Planning Initiatives --*

LAFAYETTE HILL, PA; August 5, 2008 – Integrated Project Services (IPS), a full-service engineering, construction, validation and compliance company dedicated to assisting pharmaceutical and biotechnology companies, today announced the promotion of John J. Gilroy, PE to General Manager, Construction. Previously Senior Director, Engineering, Mr. Gilroy, will build upon his leadership, extensive industry expertise and technical knowledge to assume responsibility for the strategic direction and overall management of IPS' Construction Division including Construction Management, Program Management, Pre-Construction and Design/Build services. In addition, Edward J. Tannebaum, AIA assumes the role of President, for the new entity Strategic Planning Initiatives (SPI), providing expert facilities management consulting services for technology-intense customers. SPI also offers owner representation, related program development and expert management consultation services.

"A key contributor for a number of years, John's promotion is the result of his ability to think strategically and his track record of successfully delivering large, technically complex facilities on a global scale," said Dave Goswami, P.E., President and Chief Operating Officer, IPS. "John understands all aspects of a project, from concept development and engineering through construction and validation; offering creative and innovative solutions to help our clients succeed."

"I look forward to delivering successful projects, on-time and in the most cost-effective manner, to help our clients achieve their business goals," said John Gilroy, P.E.

"The launch of SPI strengthens our position in becoming Knowledge Leaders of Choice," stated Andrew A. Signore, P.E., PMP, DBIA, CPIP, Co-Founder and Chief Executive Officer of IPS. "SPI complements IPS offerings and joins the IPS Family of Services as a valued partner, alongside CResults, PharmaBioSource, IES, Pharmacologics and SommaTech. Congratulations to Ed and John on their career achievements, we expect to benefit from their future contributions and passion for success."

Mr. Gilroy possesses more than twenty years of diverse technical experience in providing project management, engineering and construction for the pharmaceutical, biotechnology, petrochemical and semi-conductor industries. He has a particular expertise and focus within pharmaceutical manufacturing including oral solid dosage, sterile, aseptic, potent and cytotoxic projects. His key management experience includes:

- Planning, Design and Construction of over 11,000,000 square feet of Production, Manufacturing, Laboratory and Office Facilities.
 - Project Executive/Manager for state-of-the-art clinical supplies and oral solid dosage manufacturing operations including Band 1-5 potent and cytotoxic compounds; the first GMP operational clinical sterile continuous process isolation facility in the United States.
 - Design and construction of \$55 million research and development facility for multiple dosage forms including oral solids and sterile fill manufacturing.
 - Provided quality assurance and quality control for engineering projects ranging in size from \$1 million to \$75 million.
- (more)

Mr. Tannebaum offers more than thirty-five years of design, facility management and construction experience. He has served in senior management roles at several major construction service firms and large pharmaceutical companies. Mr. Tannebaum has completed manufacturing, research and development and corporate headquarters projects ranging from Internationally Compliant Aseptic Filling, GMP solid dosage manufacturing and packaging, pilot plants, potent compound facilities, and critical support operations to major R & D laboratories, facilities, and upgrades. He has led strategic site selection and master planning efforts for numerous manufacturing companies throughout the United States. Mr. Tannebaum earned a Bachelor's of Architecture from Kansas State University.
