NEW WIN ANNOUNCEMENT

IPS Providing Construction Management and Compliance Services for McGuff's New Pharmaceutical Manufacturing Facility

Blue Bell, Pennsylvania; April 13, 2018 – Integrated Project Services, LLC (IPS), a leading provider of Engineering, Procurement, Construction Management and Validation (EPCMV) services, is awarded a contract by McGuff Pharmaceutical, Inc. (McGuff) to perform construction management and compliance services for their new state-of-the-art, aseptic fill, pharmaceutical manufacturing facility in Santa Ana, California.

The planned execution of the project is over multiple phases, beginning with the buildout of Phase 1 which includes construction of a new aseptic filling CGMP facility; new GMP Warehouse; new utility plant; new office area; and additional shell space for future expansions. "This facility represents McGuff's long term commitment to meeting customer's needs for a diverse number of high quality injectable drug products at an affordable price", according to Mr. Ronald M. McGuff, President.

IPS is managing and executing this project from the Irvine, California office where they have a strong local presence complemented by a full-service EPCMV staff. The project team of pharmaceutical professionals has the integrated process and facility expertise and skills to provide the necessary flexible solutions for today's aseptic facility manufacturing.

"Our experience, and understanding of McGuff's needs for this facility place importance on plant flexibility, time-to-market, and cost control to avoid costly project delays and minimize risk," said Patrick Bucklen, Vice President West Coast Operations. "We look forward to bringing this project to a successful completion that will enable McGuff to supply high-quality drugs to patients around the world."
