**IPS CONGRATULATES PHARMALUCENCE INC., FOR THEIR  
2015 ISPE FACILITY OF THE YEAR AWARD RECOGNITION**

**Blue Bell, PA; June 5, 2015** – IPS-Integrated Project Services, Inc., a leading global full-service consulting, design, engineering, construction, project controls, commissioning / qualification & compliance firm dedicated to helping biopharmaceutical clients improve operations and deliver capital projects, is honored to have partnered with Pharmalucence Inc., a Sun Pharma Company, for their winning ISPE Facility of the Year Award (FOYA) facility renovation project in Billerica, MA.

The \$34 million advanced aseptic project replaced the existing manufacturing facility with state-of-the-art isolated filling equipment and consolidated all operations into a single building. The 2015 FOYA Judging Panel said “Pharmalucence is honored for accepting risk and succeeding in building a new facility that effectively addressed the market shortage for low margin legacy and generic radio pharmaceutical products. Through good planning and prioritization they met the challenge of balancing investment, appropriate compliance, efficient operations and business viability.”

“We extend our congratulations to Pharmalucence on their 2015 ISPE FOYA recognition,” stated Dave Goswami, PE, President and Chief Operating Officer, IPS. “The selection acknowledges Pharmalucence’s accomplishments, commitment and dedication and IPS’ innovation and lean EPCMV project delivery approach to bring cost effective and compliant products to the market to benefit consumers. IPS is very proud to have been a part of this project.”

For IPS, the Pharmalucence 2015 FOYA award represents the 5<sup>th</sup> IPS designed bio/pharmaceutical manufacturing project recognized as a state-of-the-art facility utilizing new and innovative technologies to enhance the delivery of a quality project, as well as reduce the cost of producing high-quality medicines, in the 10 year history of the ISPE Facility of the Year Awards (FOYA) program.
