**IPS TO EXHIBIT AT INTERPHEX 2008**

*IPS to hold demonstration, offer design, engineering and compliance perspective and provide project details on Facility of the Year Award winning project at show*

**Lafayette Hill, PA, March XX, 2008** – Integrated Project Services (IPS), a leading, full-service engineering, design/build, validation, and compliance company dedicated to assisting pharmaceutical and biotech companies improve operations, will be exhibiting at Interphex Philadelphia from March 26<sup>th</sup> – 28<sup>th</sup> at the Pennsylvania Convention Center. (Booth #2071) IPS will use this opportunity to share design, engineering and compliance details and provide an overview of the facility, designed by IPS, which won the Facility of the Year Award in the Equipment Innovation category.

The Facility of the Year Awards (FOYA) competition, [www.facilityoftheyear.org](http://www.facilityoftheyear.org), recognizes state-of-the-art pharmaceutical manufacturing projects that utilize new and innovative technologies to enhance the delivery of a quality project, as well as reduce the cost of producing high-quality medicines. Sponsored by ISPE, INTERPHEX and *Pharmaceutical Processing*, the Awards program effectively spotlights the accomplishments, shared commitment, and dedication of individuals in companies worldwide to innovate and advance pharmaceutical manufacturing technology for the benefit of global consumers.

The Equipment Innovation category recognizes novel application of commercially available and custom developed process manufacturing and facility management tools, which yield superior results, advanced manufacturing technologies and improved competitive position.

“We’re very excited to provide an overview and detailed project information during Interphex,” said Dave Goswami, PE, President and Chief Operating Officer. “It’s a great opportunity to learn about the advances in manufacturing technologies applied from all that contributed to its successful completion, including the designers, engineers, equipment manufacturers and vendors. Each played a key role in executing the winning project and is eager to share the technologies and innovations that were implemented.”

In addition to encouraging show attendees to visit the Facility of the Year Award booth (#4441) for more information on the winning project, the booth will provide an in-depth overview with project collaborators on-hand to speak about design and engineering details of the facility. Subject Matter Experts contributing to the project will be available for presentations and questions from booth visitors.

**About IPS**

Integrated Project Services (IPS), [www.ipsdb.com](http://www.ipsdb.com), is a full-service, engineering firm servicing the pharmaceutical and biotechnology industries as well as medical device, diagnostics and specialty chemical. IPS services include technical consulting, engineering and design, design/build, construction management, commissioning, and compliance. Located in Lafayette Hill, Pa., IPS has full service branch offices in Pennsylvania, North Carolina, New Jersey, California, Indiana, and Puerto Rico.
