**Vendors include:** AES Clean Technology, Inc., Bausch+Stroebel Machine Company, Groninger USA, Harro Höfliger Packaging Systems, Inc., IMA Life North America, Inc., OPTIMA Machinery Corporation, Rommelag USA, Inc. and SKAN US, Inc.

### **IPS Biomanufacturing Technologies Tours**

**Tour Leaders:** Tom Piombino, P.E., Chuck Stock, MBA, CxA, Lean Certified, and Jeff Odum, CPIP

**Vendors include:** AdvantaPure®/NewAge Industries, Inc., ASI-Life Sciences, EMD Millipore Corporation, GE Healthcare, Pall Life Sciences, Parker domnick hunter, and Thermo Fisher Scientific

### **IPS Inspection & Packaging Technologies Tours**

**Tour Leaders:** Kevin Swartz, Leonard Pauzer, Jr., and Tina Gushue

**Vendors include:** Korber Medipak Systems (Dividella and Seidenader), Wilco AG, Fargo Automation, MG America, and OCS Checkweighers, Inc.

### **IPS Oral Solid Dosage Technologies Tours**

**Tour Leaders:** Mike Vileikis, Sam Halaby, Andrew Christofides, P.E., Russ Somma, Ph.D.

**Vendors include:** Fette Compacting America, Inc., Glatt Air Techniques, Inc., ILC Dover LP, KORSCH America, Inc., LB Bohle, SERVOLIFT, Freund-Vector Corporation, and Walker Barrier Systems

### **IPS Modular Construction Technologies Tours**

**Tour Leaders:** John Costalas, LEED AP, and Dan Leorda, P.E.

**Vendors include:** A&B Process Systems, AES Clean Technology, Inc. & Biologics Modular

### **Location**

INTERPHEX 2015  
Jacob K. Javits Convention Center  
655 West 34th Street | New York, NY, 10001

### **About the Tours**

IPS, in partnership with *Pharmaceutical Processing*, is proud to announce that we will be hosting Technology Tours during INTERPHEX for the fifth year in a row. As the premier pharmaceutical equipment showcase in North America, INTERPHEX provides a unique venue for IPS to show our customers firsthand the latest technologies and equipment that can improve their operations.

The goal of the Technology Tours is to share our knowledge and experience by informing customers of what we have found to be the best performing equipment, both tried and true and new to the market, which could suit their manufacturing needs. One of the allures of our tours is that customers can utilize their time at the show efficiently by having independent subject matter experts navigate them through a select group of preferred vendors. *Pharmaceutical Processing*, a leading source for contract services and manufacturing news, as well as the latest packaging, processing and new product developments, will also be publishing a printed guide for the tours.

IPS developed the concept of "Technology Tours" and is continually adding innovative concepts to the INTERPHEX venue. This year, IPS is offering five distinct technology tours (Aseptic, OSD, Biotech, Inspection & Packaging, and Modular Construction) and will showcase the top cutting-edge technical innovations in each technical category. The Tours will be on Wednesday, April 22, 2015 at 10:00am and 1:00pm. The tours are typically two hours long. [To learn more, view our video on YouTube.](#)

In addition, IPS has partnered with INTERPHEX on a new program called "Interphex on Location" (IOL). The IOL platform happens throughout the year by traveling to the owner and vendor companies' manufacturing sites to get an inside look at how they are delivering creative solutions to address the many challenges in our industry. IOL will be accessible at INTERPHEX, as well as via the web so that information can be viewed and reviewed all year long.

This year, the IPS IOL team will highlight GE Healthcare and their technical and business strategies toward "Simplification" for their customers. We will hear from some of GE's visionaries about how they are executing this vision through their Solutions Modality team structure. We'll learn about their process and equipment design connectivity and how they support their customers from the inception of a project through IOQ.

### **About IPS**

IPS-Integrated Project Services is a global leader in developing innovative and cost effective solutions for the engineering, construction, commissioning and qualification of complex pharmaceutical and biotech research and manufacturing facilities. With technical expertise spanning R&D to pilot-scale to large-scale production, our team specializes in the technology, trends and regulatory environment to successfully deliver capital projects and improve operations. For over twenty-five years, we have applied unique LEAN methodologies throughout the project life cycle, continually finding ways to do things better and more efficiently, delivering higher quality and controlling costs. Headquartered in Blue Bell, PA, IPS is a multi-national company with over 780 professionals and offices in California, Indiana, Massachusetts, New Jersey, North Carolina, Brazil, Singapore, China and four locations in India. Visit our website at [www.ipsdb.com](http://www.ipsdb.com).

### **About Pharmaceutical Processing**

Since 1984, [Pharmaceutical Processing](#) has provided pharmaceutical and biopharmaceutical manufacturing professionals with news and information on the cutting-edge technologies and services for the pharmaceutical, biopharmaceutical, nutraceutical, and medical device markets. From formulation to manufacturing to packaging, *Pharmaceutical Processing* engages this audience daily, weekly, and monthly with relevant industry news, best practices, and technology solutions that solve critical issues, delivering it in the formats that meet their business and professional needs.
