**IPS TO OFFER ADVANCED ASEPTIC TECHNOLOGIES TOUR AND
SINGLE-USE TECHNOLOGY TOUR AT INTERPHEX 2011**

4th Annual Advanced Aseptic Technologies Tour

March 30, 2011; Tours at 10:00am and 12:30pm

The 4th Annual Advanced Aseptic Technologies Tour will visit leading aseptic technology suppliers and also discuss the many unique, first time equipment configurations that were incorporated into United Therapeutics' state-of-the-art, Aseptic Fill / Finish facility. The facility integrates two advanced aseptic technologies - Barrier Isolation and Blow-Fill-Seal. The Tours will be led by Sterling Kline, RA of IPS and Patrick Poisson of United Therapeutics. Join us for a brief Introductory Overview, 10:00am on the show floor at INTERPHEX CONNECTS.

2nd Annual Single-use Technology Tour

March 30, 2011; Tours at 10:00am and 1:00pm

The 2nd Annual Single-use Technology Tour features leading manufacturers of single-use systems to provide a comprehensive view of available technologies currently on the market. The tours will be led by disposable experts, Dave Wareheim and Tom Piombino, PE of IPS.

Location

INTERPHEX 2011
Jacob K. Javits Convention Center
655 West 34th Street | New York, NY, 10001

About IPS

Integrated Project Services (IPS), www.ipsdb.com, is a full-service engineering firm dedicated to helping clients succeed with capital projects and improve operations. We specialize in complex facilities in high-tech and highly regulated industries providing technical consulting, engineering, construction and commissioning and qualification. For over twenty years, we have applied technical knowledge and LEAN techniques throughout the project life cycle, continually finding ways to do things better and more efficiently, delivering higher quality and controlling costs. Headquartered in Lafayette Hill, PA, IPS has branch offices in California, Indiana, Massachusetts, New Jersey and North Carolina and two locations in India, New Delhi and Hyderabad.
