**MARK E. REZAC, PE JOINS IPS AS DIRECTOR, COMPLIANCE CONSULTING**

-Extensive Leadership Experience in International Compliance Excellence  
and Biopharmaceutical Manufacturing Technical Expertise -

**Blue Bell, PA; December 12, 2013** – IPS-Integrated Project Services, Inc. (IPS), a leading, full-service engineering firm dedicated to helping biopharmaceutical clients succeed with capital projects and improve operations, today announced the appointment of Mark E. Rezac, PE as Director, Compliance Consulting.

“Mark has the unique experience of leading and implementing the latest Commissioning and Qualification (C&Q) methodologies in a large pharma company as well as successfully completing complex capital projects in many countries around the world. Mark also has held leadership roles in the C & Q Community of Practice with the International Society for Pharmaceutical Engineering (ISPE),” said Dave Goswami, PE, Chairman and Chief Executive Officer, IPS. “Mark’s talent and cross-functional experience along with his extensive knowledge of global regulations is a perfect asset for IPS’ Compliance Division. We are delighted to welcome him to IPS and look forward to his many contributions in the years to come.”

Mr. Rezac offers clients more than thirty years of senior-level management experience in assuring Current Good Manufacturing Compliance (cGMP), commissioning and qualification of state-of-the-art global biomanufacturing facilities. Sigma Black Belt certified, Mr. Rezac is considered a subject matter expert on identifying, defining and improving capital project execution for vaccine, biotechnology, pharmaceutical and research facilities around the world. With increasing levels of responsibilities, he established and implemented quality and compliance programs, led cross-functional teams and improved business and manufacturing operations through capital improvements for Merck & Co., Inc. for the last twenty-seven years. Mr. Rezac has successfully directed design, engineering, construction, start-up, qualification and turnover of both large and small projects through regulatory licensing and approval for operation. Mr. Rezac received a Bachelors’ Degree in Civil Engineering Technology from the University of Pittsburgh and earned a Masters of Business Administration from the Katz Graduate School of Business, University of Pittsburgh.
