IPS APPOINTS INDUSTRY VETERAN DIRECTOR OF PROCESS

-Tim Schuster Offers Depth of Bioprocess and Biomanufacturing Expertise -

Blue Bell, PA; January 21, 2014 – IPS-Integrated Project Services, Inc. (IPS), a leading, full-service engineering, construction, commissioning and qualification firm dedicated to helping clients succeed with capital projects and improve operations, today announced the appointment of Tim Schuster as Director of Process Engineering based in corporate headquarters in Blue Bell, Pennsylvania.

Mr. Schuster is a well-known Subject Matter Expert in the biotechnology industry and possesses twenty-five years of global experience in bioprocess engineering, project management and facility and critical utilities systems design having executed projects in Europe, Asia/Pacific and the United States. Throughout his career, he has maintained expertise on leading technologies within bioprocess and biomanufacturing, including fermentation, single-use systems, process design, large-scale cell culture, recovery, vaccines, isolation and purification. Prior to joining IPS, Mr. Schuster has held technical leadership positions at Biokinetics, Foster Wheeler and Washington Group International. He received a Master's Degree in Engineering Management from Drexel University and undergraduate degrees in both Chemistry and Chemical Engineering from the University of Maryland. He is a member of the American Institute of Chemical Engineers and the American Chemical Society.

“We are pleased to have an expert of Tim’s caliber join IPS,” said Dave Goswami, PE, Chief Executive Officer and Chairman, IPS. “Tim brings state-of-the-art knowledge of bioprocess engineering and his experience in complex biotechnology projects in various parts of the world will be a great complement to the strong Biotechnology Team that IPS has developed. The addition of Tim is in line with our focus on becoming the top service provider in the biotechnology sector.”

About IPS

IPS-Integrated Project Services is a global leader in developing innovative and cost effective solutions for the engineering, construction, commissioning and qualification of complex pharmaceutical and biotech research and manufacturing facilities. With technical expertise spanning R&D to pilot-scale to large-scale production, our team specializes in the technology, trends and regulatory environment to successfully deliver capital projects and improve operations. For over twenty years, we have applied unique LEAN methodologies throughout the project life cycle, continually finding ways to do things better and more efficiently, delivering higher quality and controlling costs. Headquartered in Blue Bell, PA, IPS is a multi-national company with over 750 professionals and offices in California, Indiana, Massachusetts, New Jersey, North Carolina, Brazil and four locations in India.
