## JONATHAN VINE JOINS IPS AS DIRECTOR, PROJECT MANAGEMENT OFFICE SERVICES

*- Proven Leader to Drive the Success of New PMO Service Offering -*

**Blue Bell, Pennsylvania, January 21, 2019** – IPS-Integrated Project Services, LLC, a leading provider of engineering, procurement, construction management, and validation (EPCMV) services, is pleased to announce the appointment of Mr. Jonathan Vine to the position of Director, Project Management Office (PMO) Services.

IPS' establishment of PMO managed services complements the company's Integrated Project Delivery and EPCMV models with end-to-end delivery solutions beyond capital project execution. IPS' PMO is a business-partnering approach to support a client's strategic planning and business goals.

Mr. Vine brings over 27 years of experience in the life sciences sector, from pharmaceutical research and development to primary and secondary manufacturing facilities. He has set up project and program governance teams and related tools for capital spend ranging from \$100 million to \$1 billion in value and applied to projects located in multiple sites, regions and countries. Mr. Vine's experience in leading project and program-level teams that focus on quality assurance of cost, risk, and schedule to manage client objectives makes him the ideal person to direct IPS' PMO.

Mr. Vine's approach to PMO is "it's not just the delivery of successful projects that makes a difference, but presenting the right solutions to our clients' business by placing trust in the experts, operating under self-governance to eliminate the check-the-checker culture, and embracing technology to retain knowhow and knowledge across the industry as a whole."

Mr. Vine is located in IPS' headquarters in Blue Bell, Pennsylvania. He works closely with executive and divisional leadership to advance the IPS PMO, leveraging all the key attributes of the organization to implementing and delivering a full, end-to-end business solution.

"IPS has been delivering integrated projects for over 30 years; along the way, establishing processes, standards, policies, training, and resources to ensure projects are delivered within budget, on schedule, and ultimately successful for our clients," stated Dave Goswami, IPS Chairman and CEO. "Our next evolution in project delivery

transcends multiple projects at one or multiple client sites. IPS PMO implements a partnered approach from day one with a client to get early alignment to business goals. The addition of PMO industry implementation leader, Jon Vine, to IPS aligns with our vision to be the premier integrated service provider delivering innovative, technology-based business solutions to help our clients succeed.”

## **About IPS**

IPS is a global leader in developing innovative business solutions for the biotechnology and pharmaceutical industries.
